Experience

CBDetailing   **June 2023 – October 2023**
Founder and Employee   *New York/New Jersey*

- Founded and operated a mobile car detailing service, served local customers and providing high-quality detailing services
- Oversaw daily operations, managed schedules, handled customer inquiries and bookings, and maintained financial records, ensuring profitability and growth.
- Provided detailing services through affordable pricing packages, maintained high customer satisfaction

On The Court Basketball   **September 2021 – March 2022**
Employee   *Clark, New Jersey*

- Organized and managed a basketball team for young children, focusing on skill development and fostering a love for the game.
- Provided instruction on basic basketball techniques, including dribbling, shooting, passing, and defense, tailored to the skill level of young players.
- Implemented a reward system, including scrimmages and knockout matches, to incentivize young players to give it their all and help them get better

Bandhani4U LLC.   **January 2022 - Present**
Employee   *New Jersey*

- Assisted in the family business by contacting clients and setting up appointments
- Maintained relations with suppliers in order to negotiate future deals and purchases
- Attended various community events and conventions to exhibit our products; aided in running popup shopping events
- Collaborated on marketing tactics and spearheaded photography sessions; co-managed social media presence (Instagram, FaceBook, etc.)

Projects and Other Experience/Work

Frontend Web Application Portfolio *HTML, CSS, Javascript*   **September 2024**

- Implemented HTML, CSS, and Javascript to build a personal portfolio in order to showcase my experience, education, projects, and introduce myself
- Implemented media queries and flexible layouts to ensure a consistent user experience across desktops, tablets, and smartphones, leading to improved viewer retention and engagement
- Enhanced loading speed by optimizing images and code structure, reducing page load time by 30% and improving user experience for visitors

RUHungry *Java*   **January 2024**

- Built a simulated restaurant application using Java, featuring 10+ classes for various entities (e.g., Menu, Queue, Stock) to manage operations, enhancing understanding of object-oriented programming.
- Utilized data structures like linked lists in StockNode and MenuNode classes to efficiently manage inventory and menu items, resulting in a 20% reduction in processing time for menu updates and stock adjustments
- Implemented a queue system to handle customer orders and party arrivals, reducing simulated wait times by up to 30% compared to a first-come-first-served model.

Divine Youth Associates *Founder*   **Fall 2023 - Current**

- Co-led a self-development club on my college campus, fostering growth through discussions on values, historical figures, and structured debates.
- Built relationships with fellow students based on the principle of selfless connection, avoiding personal motives tied to profit, pleasure, or principle.
